WHAT TYPE OF FIRM IS RIGHT FOR YOU?

This is the same question you asked when you selected your college or university. As a regional firm, we offer the benefits of both the national and local firms.

Our professionals provide services globally in many different industries. This gives our employees personal growth and opportunities for advancement. At the same time, we recognize and reward the value of the individual. The cornerstone of our success is the strength of personal relationships developed by working one on one with our clients.

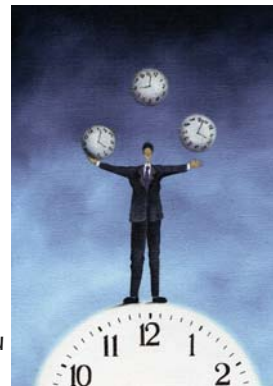

OPPORTUNITY

As far as we're concerned, the faster you get out of the blocks, the better. Opportunities abound for those who have skills to put into action and the drive to accomplish goals. We have a proven track record for developing quality people. Our team will help you grow and achieve goals in your race to success.

FLEXIBILITY

You've worked hard for your achievements. Your future success will require continued sustained effort. We offer flexible work hours and benefits as part of your reward for the status you have attained. For more details, ask us about our soft benefits.

CULTURE

Probably the most important factor for your success and happiness is the level of compatibility you attain with the people you work with.

Before anyone is asked to join our firm, they have an opportunity to meet and speak candidly with their peers. We feel this is the best way for you and us to decide if we are right for each other.
